

Digital Camera and Imaging Classes

2009 Harpswell Recreation and The
Harpswell Heritage Land Trust

Held at the Land Trust on Rt. 123

Instructor: David Higgins

Course I - Using Your Digital Camera – This “how to class” will teach you how to use your camera, download, organize files and use free internet applications to create photo products (calendars, books, slide shows, print services, etc.). We’ll cover exposure modes, white balance, resolution and downloading of images as well as good photographic practices and techniques. There will be an opportunity to put shooting techniques into practice in the later classes.
Wednesdays, September 9, 16, 23, 30 Two sessions: 3-5pm or 6-8pm \$95

Course II – Digital Photography – This course is designed for those who want to take their photographic skills up a notch and begin learning the ins and outs of digital imaging software. We’ll cover composition, image correction and adjustment, camera techniques and software, including cropping, tonal adjustments and basic retouching plus preparation of images for a variety of outputs. Emphasis will be placed on making good photos from shooting to printing. Laptops will be available but bring your own if you have one.

Wednesdays, October 7, 14, 21, 28 Two sessions: 3-5pm or 6-8pm \$95

Course III – Image Presentation – This is an advanced class offering photographic and computer techniques for those comfortable with camera and computer use and familiar with using software. Students will finish and frame one piece to be hung at the town office in January.

Wednesdays, November 4, 18, Dec 2, 9 Two sessions: 3-5pm or 6-8pm \$95

If you do not already own a digital camera you may wish to hold off until the first lecture of Course I. After that you will need your own camera and a computer at home. In course II and III it is not necessary, but helpful, to bring a laptop. Some laptops will be provided by the instructor.
